A Message From The Editor:

We're going to deviate from our usual format slightly so we can express our sincere thanks to all those who contributed to this, our annual International Meet Issue. Because it covers our biggest event of the year, we consider this issue the most important one on our publications calendar. In case you haven't heard, our 1987 International meet, which straddled the New Jersey/Pennsylvania border, was our largest and most successful ever.

We think the neat Cover Photo, which was snapped by Maryland member George L. Hamlin, nicely captures the atmosphere of the "main event" -- the Saturday car show, held this year in conjunction with the big New Hope (PA) Antique Auto Show. George took this photo from the top of the softball backstop at the New Hope School Grounds.

We're grateful, too, to New Jersey member Craig Stewart, who prepared the report on this year's meet, and to Craig, Maryland member Steve Lichtman and Canadian member Kent Roduck, who provided the photographs used to illustrate this issue. Because of the large number of excellent photos sent in by the aforementioned PCS'ers. this was one of the most difficult issues of "The Professional Car" we have ever edited. We would have loved to have run `em all, but because of space and postal rate considerations had to choose very carefully in order to strike a balance between funeral cars, ambulances, flower cars and limousines and the various meet activities.

We hope the 1987 International Meet Issue evokes enough pleasant memories to carry you through the long winter months. See you in Decatur next year...
